INFORMATION LETTER – 2016 MFT SIDEWALK R&R PROGRAM

Dear Project Area Residents, Institutions and Interested Parties:

On August 23, 2016 the Village Board approved the Village's Annual Sidewalk Removal & Replacement (R&R) Program. Strada Construction out of Addison, IL was awarded this year's sidewalk R&R program. The awarded contract amount for this project is \$54,140.00.

The purpose of the project is to remove and replace sidewalk squares that have been found to be deficient due to extreme deterioration or a severe trip hazard, defined as deflection of 1.25" or greater. Sidewalk squares in the targeted area that are a trip hazard but do not fall into the severe category are being addressed by Staff using a concrete grinder to remove the hazard. Please see the map below depicting the areas included in this year's program.

This letter is an effort to make this project go as smoothly as possible for the affected residents. We anticipate this will be a one to two week project; however, the scheduling is at the contractor's discretion and is subject to change. At this time, the tentative anticipated start date is September 12, 2016, weather permitting. The completion date for the project is October 31, 2016. The working hours are from 7 AM to 7 PM from Monday through Friday. At this time, no Saturday work is anticipated, except for minor cleanup.

The scope of work includes saw-cut the sidewalks marked for replacement by staff, remove the sidewalk, compact the underlying stone, frame and pour the sidewalk. This operation may cause temporary delays and inconvenience while the project is under construction. Please refrain from parking on the street during the project and exercise caution while driving through the project area. Some residents may be out of their driveway during construction due to the required cure time on the concrete. The impacted residents may park their cars on the street during this time. The Village's Police Department is aware of the project.

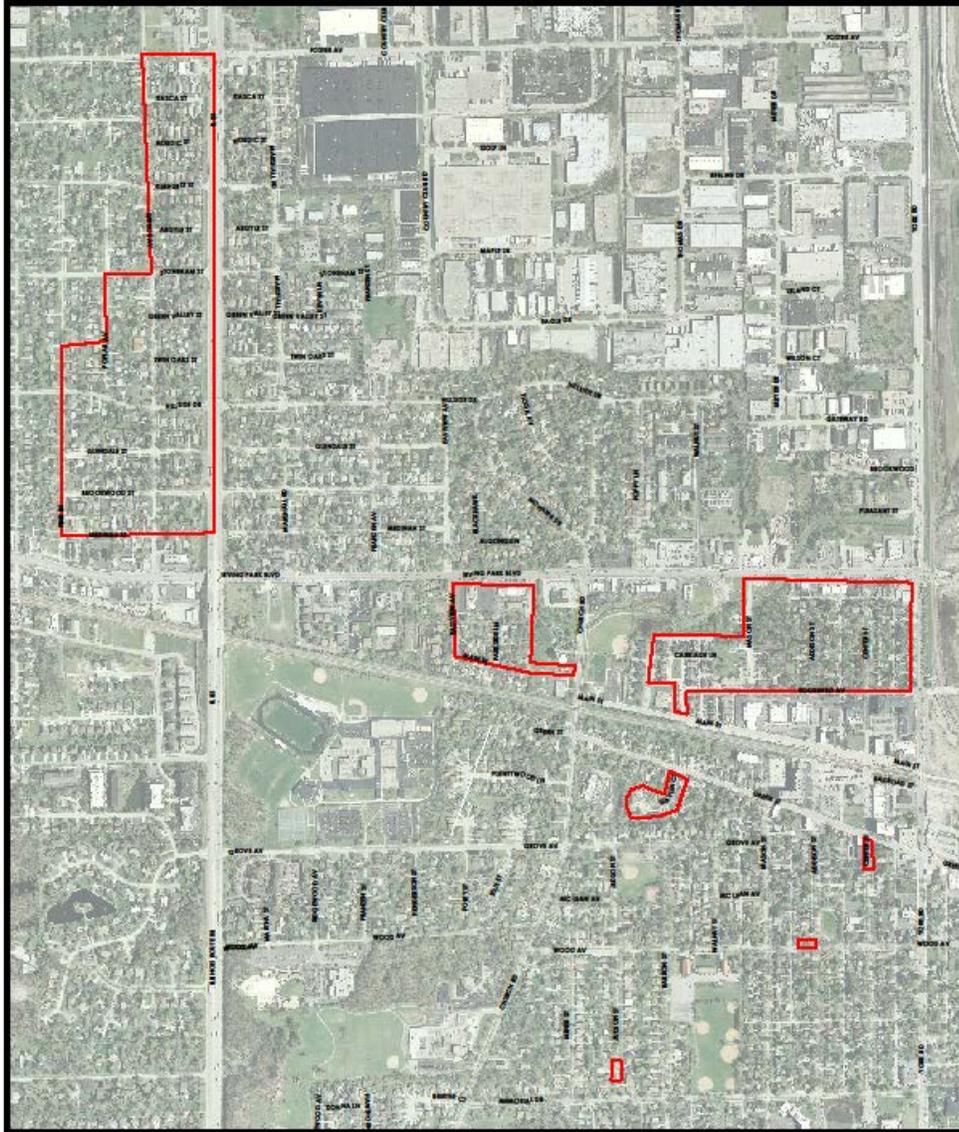

In closing, thank you for your interest, patience and cooperation as we move through the construction stage of the project. Inevitably there will be disruptions and inconveniences to endure for a short period of time. Please contact Mike Beranek, Mehul Patel or myself at 630-350-3435 with any concerns, insights and suggestions. The Village and the contractor are all

committed to keeping the lines of communication open and to have a successful and safe project.

Village of Bensenville

2016 Sidewalk Replacement Program

Date: 7/13/2016

Very truly yours,

Joe Caracci, P.E.
Director of Public Works
